

有无线,方精彩! Let's enjoy the wireless life

有无线,方精彩! Let's enjoy the wireless life

Neoway Enterprise Culture

Vision:

• To be the most respected global supplier of wireless products and services.

Mission:

- To focus on the development and realization of the demand for wireless applications, so that people can work more efficiently and have a more exciting life.
- To create a sense of belonging in the working environment for staff.
- To devote to the establishment of high-quality Chinese product brands.
- To be an exemplary green enterprise.

Core value:

• Continuous improvement and pursuing excellence.

Code of Conduct:

· Service, Precision, Discipline, Speed.

Neoway

Address: 4F-2#, Lianjian Science&Industry Park, Dalang, Baoan District, Shenzhen 518100 P.R.C. Tel: [86]755-29671361 Fax: [86]755-29672566

M590 G P R S Industrial Module

The First Industrial Pure-data Single-Chip GPRS Module in the World

70% Market share in China AMR application

Total shipments over 10 millions

Shenzhen Neoway Technology Co.,Ltd is a national-level Hi-tech enterprise focusing on the research and development of M2M wireless communications products and services. We are committed to providing professional industrial modules and solutions including GSM/GPRS, CDMA 1X, WCDMA, EVDO and short-range wireless modules.

Neoway is the first supplier which launched single-chip industrial GPRS module in the world, and M590 is the first single-chip pure-data industral GPGS module in the world.

WWW.NEOWAY.COM.(CN

Neoway now has more than 400 employees, and 60% of them are R&D engineers. The skeleton engineers come from the leading wireless telecommunications companies and have more than 10 years R&D experience in industrial application technology.

Neoway is dedicated to the research and development of the core technology of M2M industrial modules and provide optimized solutions. Some of them are listed below:

■ Smart Metering: Exploring the market demands of AMR and providing industrial wireless communications modules with high cost performance.

Star product:

- -M590: it is a GPRS module specially designed for AMR with pure data, wide operating temperature range and strong EMC performance.
- -EM320: it is an open CPU version specially designed for general AMR solutions. Total shipment for AMR market is more than 11 million sets.
- Intelligent Traffic System (ITS): Shortening R&D cycle for customers and reducing cost.

Star product:

- -M660: it is specially designed for AVL with an ultra compact form factor and can be easily handled.
- -GM650: it combines GPRS and GPS functions, and reserves resources for open CPU applications.
 - Total shipment for AVL market is more than 4 million sets.
- Android Industrial Terminal: Providing total solution for industrial smart terminal, with embedded Android OS, 3G modem, WIFI, BT and GPS, supporting rich peripherals, such as high-resolution Camera, LCD, touch panel, printer, scanner, card reader, MMC and USB host.
